

I listen to K-LOVE radio on 105.5 FM in Phoenix, AZ. I understand that the FCC is considering new rules that would prevent such stations from staying on the air. I would oppose such a rule. To my knowledge K-LOVE is the only Christian music station in the Phoenix area that has an all music format (others are music/talk). I would be disappointed to lose this one of a kind station. The music it offers is a blessing to me because it is clean and family friendly. Something most radio stations do not do. I think it is important in a community to size of Phoenix to have a radio station that provides clean, family friendly entertainment. I hope you will reconsider the rules that would shut down these stations.
